

Privacy policy

This document is the privacy policy (by General Data Protection Regulation) of the website goingvirtual.eu created by Tampere University of Applied Sciences. This document explains how our organization uses the collected data on this website.

Created: 30.03.2022.

1. Register holder

Organization: Tampere University of Applied Sciences

Business ID: 1015428-1

Address: Kuntokatu 3, 33520 Tampere, Finland

2. Contact person

Name: Susanna Saarinen

Email: susanna.saarinen@tuni.fi

3. Register name

Going Virtual website user register

4. Usage of personal data

Personal data is only gathered for registration purposes and handling users of the website.

5. Register data content

Data saved to the register are the following ones:

- first and last name
- email address
- institution
- country
- IP address

The register holder deals and holds personal data only for so long as it is necessary.

Unnecessary personal data of which the register holder doesn't have a basis to hold or deal, will be deleted regularly.

The users' IP addresses and necessary cookies necessary for the service will be dealt with for the benefit of the user in cases when they are seen as personal data. A consent is asked for third party cookies.

6. Sources of gathered personal data

Data saved to the register is gathered from sign up forms, profile forms and other situations where the user hands over their data.

7. Transfer of personal data outside EU/ETA

Personal data isn't sent to other directions per se unless authorities demand or force so under legislation. Data can be handed outside the EU or ETA.

8. Register protection

Handling the register is done carefully and properly. When personal data is held on internet servers, the hardware and information security are taken care of properly. The register holder looks after that saved data is dealt with confidentially and by employees of whose job description it belongs to.

9. Right to inspect personal data saved to the register

Every person saved to the register has the right to inspect their own personal data and demand that false information is corrected or missing information is filled. Whether the person wants to inspect the saved data, they must send a request in writing to the register holder's contact person. The register holder may require you to prove your identity. The register holder will answer to the user in a month.

10. Other rights about personal data

Every person saved to the register has the right to request deleting their personal data from the register. Registered people also have the rights to request restriction of processing your data in certain situations. Send the requests to the register holder in writing. The register holder may require you to prove your identity. The register holder will answer to the user in a month.
